Our Story

Stewart & Jasper Orchards, located in the heart of the San Joaquin Valley, is a multi-generational family-run farming operation headquartered in Newman, California that takes pride in creating the finest quality almond products. Since 1948, when our company was founded by Romain Stewart and Lee Jasper, we have integrated every aspect of production from the orchard to the marketplace including growing, hulling, shelling, processing, exporting, and marketing. Our first store, which began as a service to growers and neighbors, is a California legacy and has now grown to three convenient retail locations.

Our rich family history, our attention to detail, and our commitment to producing the finest California Almonds is evident in every aspect of our operation. From the orchard to your home, and to countries beyond our borders, Stewart & Jasper remains committed to producing and marketing fresh, quality, California almonds for generations to come…***From Our Orchards to You!***

Every unique snack in the Stewart & Jasper line-up is made from premium almonds and unique flavorings, all dry roasted and crafted in small batches to deliver exceptional quality.
